

# PEDIBAEHR Medilamin® Nail Tincture with piroctone olamine – for toenails affected by nail fungus

## PEDIBAEHR Medilamin® Nail Tincture – can

- inhibits fungal growth
- with antimicrobial and regenerative effect

PEDIBAEHR Medilamin® Nail Tincture is effective at regenerating nails afflicted by nail fungus. The tincture, which contains an innovative combination of piroctone olamine and antimicrobial octenidine, is quickly absorbed into the smallest crevices, penetrates the cell walls of the fungi and effectively inhibits their growth. The nail can grow back visibly healthy. High-quality jojoba oil increases the elasticity and strength of the nail and improves the nail structure for beautiful, well-groomed toenails.

### Application:

For external use only. Spray onto toenails twice a day or as needed.

### Precautionary statements:

May cause an allergic skin reaction. Do not use on children under the age of 3 years old. Extremely flammable gas. Pressurised container: May burst if heated. Keep away from heat/sparks/open flames/hot surfaces. — No smoking. Do not spray on an open flame or other ignition source. Do not pierce or burn, even after use. Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 °F. Keep out of the reach of children. Read label before use. Use only outdoors or in a well-ventilated area. Do not spray in the eyes. Only dispose of when empty.

### Ingredients

Isopropyl Alcohol, Butane, Propane, Simmondsia Chinensis (Jojoba) Seed Oil, Isobutane, Piroctone Olamine, Propylene Glycol, Bisabolol, Ethylhexylglycerin, Farnesol, Octenidine HCL.
